1 Begin by cleaning the screen with the Wet Wipes and the Microfiber Cleaning Cloth. Remove any dust with the dust removal cover.

**2** Pull the tab downwards to remove the mask film. *Note: Pull DOWN! Pulling OUTWARDS may dislodge the screen protector from the tray!
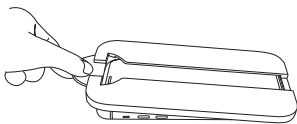

CORRECT

INCORRECT

3 Place the application tray over your phone screen. the top of the tray aligns with the top of the phone.

4 Press the screen protector on the top and slide over the open cut SLOWLY. The screen protector will attach and adhesive will spread automatically.

5 Remove the application tray from the phone by lifting it off of the phone. The blue film will come off with the tray.

6 If needed, press along the edges of the screen protector to reinforce the adhesive to the phone's surface.
